What the Community is Saying About Project Wildlife

“Project Wildlife is composed of an amazing group of dedicated and enthusiastic volunteers. They work within a well-run and safe organization that cares for the health of our wildlife. Our ability to assess and protect the health of people, animals and the

environment has been significantly enhanced over the past 10 years by working hand-in-hand with Project Wildlife.”

– *Nikos Gurfield, DVM, DACVP County Veterinarian*

“Even in the most pristine places, human progress reaches out and affects the native wildlife. Our cars, power lines, pets and homes are a virtual minefield of deadly obstacles for wild creatures trying to feed, breed, and live out their lives. I am thankful for the endless hard work, done around the

clock, by Project Wildlife. The lives they save every day help maintain the biodiversity of our region.”

– *Loren Nancarrow, Environmental Specialist/Anchor, FOX 5 San Diego*
